Mingo Lodge Directions and Maps

Page last updated August 29, 2022

If using a GPS device, please be sure to enter 1501 Sand Run Parkway (the Lodge), not 1501 Sand Run Road (a residence!) An area map of the Sand Run Parkway with the approximate location of the shelter denoted by the red star is given below:

The next map is a more detailed one showing the location of the lodge (again, a red star) in the Park more precisely. Note the relative locations of the ford (roughly 1/4 mile west of the shelter) and the entrance to the Service Facility (roughly 100 yards east of the shelter.) The location of the ford is important as a landmark AND because the ford may be closed due to inclement weather. If there are "Road Closed" signs at the Sand Run Road and Portage Path entrances to the park, this means that the only access to the Mingo Lodge is from the east (Portage Path.)
