Mingo Shelter Directions and Maps

Page last updated August 20, 2022

Directions and Maps to the Mingo Shelter using GPS devices can be misleading because the address of the Mingo Shelter is given as 1501 Sand Run Parkway (the shelter), but sometimes maps and directions are given to 1501 Sand Run Road (a residence!) The maps and directions given below should help alleviate the confusion. First an area map of the Sand Run Parkway with the approximate location of the shelter denoted by the red star is given below:

The next map is a more detailed one showing the location of the shelter (again, a red star) in the Park more precisely. Note the relative locations of the ford (roughly 1/4 mile west of the shelter) and the entrance to the Service Facility (roughly 100 yards east of the shelter.) The location of the ford is important as a landmark AND because the ford may be closed due to inclement

weather. If there are "Road Closed" signs at the Sand Run Road and Portage Path entrances to the park, this means that the only access to the Mingo Shelter is from the east (Portage Path.)
